

Lab instructions for lab 1 GIK2PB - Test of IT-systems

Website to test: <https://www.du.se> or <https://www.du.se/en>

Submission deadline: **17 October 2025, 23:59**

Lab 1 and Lab 2 should be submitted together.

Type of test: accessibility testing - <https://www.guru99.com/accessibility-testing.html>

Accessibility testing is a subset of Usability Testing.

Dynamic -> black box -> non-functional -> usability testing

Literature

Hambling, Brian, (2010) - Software testing: an ISTQB-BCS certified tester foundation guide / Brian Hambling, Peter Morgan, Angelina Samaroo, Geoff Thompson and Peter Williams; edited by Brian Hambling. - 2. ed.

- Test plan pages: 130-133, 142-147
- Test cases pages: 77-79

Documents

- Online videos and material (circulated before the seminar)
- Study guide heading 3.2, 3.2.1
- Templates
 - Test plan
 - Test case

What to do:

- 1) Read through the following page that covers the **User stories** and the **Personas**.
- 2) Each group should find the user story linked to their group number. Each member of the group should choose **one persona**.
- 3) Use tools like [ANDI](#) and [Wave](#) to get some automated test results. Verify the results manually.
- 4) Use the test plan template to create your test plan.
- 5) Use the test case template to create at least 4 test cases per person in the group, the test cases should be based on your group's user story mentioned below.

Describe the concepts (in the test plan) that you use and refer to sources (see assessment of the lab in the study guide).

User stories

All requirements must be able to be performed on mobile phone and computer.

1. As a logged-in student, I want to find information about when the doors close in connection with an exam on campus.
2. As a visitor, I want to download the education plan for the Sports Coach Program and read it as a pdf in the computer.
3. As a new student, I would like information on how to use Zoom at Dalarna University.
4. As a logged-in student on the student web, I want to find an old exam in the subject Political Science, course SK1057 (International Relations and Globalization), from December 10, 2021.
5. As an employee, I want to know if I can get a wellness allowance to buy an exercise app.
6. As an employee, I want to know which VAT number suppliers outside Sweden must state on supplier invoices.
7. As a visitor, I want to know when it is possible to sign up for a program in media that is also offered remotely.
8. As a new student, I want to find my program room in Canvas and read the introductory text for new students.
9. As a student, I want to know more about what support is available from the university if I have a disability.
10. As a student, I want to receive information about how to log in to the university's network.
11. As an administrative staff, I want to know how many hours of overtime I can work per month.
12. As a new student, I want to know what dates the study support centre has activities and if you need to register.
13. As a visitor, I want help to find and navigate pages that have a lot of information (long pages)
14. As a visitor, I want to be able to find information about an employee at the university.
15. As an employee, I want to know how to order the university's promotional products.
16. As a researcher, I want to find out what applies to archiving research data, and especially when research data can be deleted at the earliest.
17. As a teaching staff, I want to know how to get started with my teaching in a hybrid classroom.

Personas

The different types of personas with different types of accessibility challenges (few examples)

1. Visual impairment (blind)
2. Active mobile user
3. Motor difficulties
4. Inexperienced computer/mobile user
5. Multiple sclerosis (e.g., involuntary hand movements)
6. Aphasia
7. Visual challenges
